### HAPPY BIRTHDAY, LMR, 1 YEAR OLD :D

On January 30, 2008, the first lines of text, robots, help and comments was made on this website, letsmakerobots.com - aka LMR. This weekend is therefore a special weekend, LMR is one year old. To celebrate, the normal frontpage is replaced with this special birthday-page :) [The normal frontpage can be found here](#). Anyone not logged in will not see much birthday-special, because what we celebrate are us, the members. All LMR are belong to us.

[Make sure to read the special burthday-pulse here :\)](#)

[Make sure to participate in the special win-a-thiqey-contest & read emotional speaking + see stats for LMR here :\)](#)
